Resolutions Adopted by the Senate.

STIRRING ADDRESSES DELIVERED

Spain and General Weyler De nounced in Scathing Terms. The Vote 64 to 6.

Washington, February 28, overwhelming vote of 64 to 6, the sen-ate tuday adopted a concurrent resolution favorable to Cuban belligerence and independence. The resolution adopted are as follows:

representatives concurring, that in the duq lo nollibnos a resignos lo noiniqu lic war exists between the government and for some time maintained by force of arms by the people of Cuba; and that the United States of America should maintain a strict neutrality be-tween the contending powers, according to each and all the rights of belligerents in the ports and territory of the United

Resolved, That the friendly offices of

Resulted, That the friendly offices of the United States should be offered by the President to the Spanish government for the recognition of the independence of Cuba.

When this result was announced the densely packed galleries broke into loud continued applause which the vice president checked with difficulty.

The main feature of the debate was the speech of Senator Sherman, chairman of the committee on foreign relations. As a rule the veteran senator from Ohio speake with conservatism, so it was the more corprising when he arraigned Spain and General Weyler in the most scatting language. Mr. Sherman read specific instances in which Weyler was pictured as stripping young girls held se captives and compelling them to dance before the Spanish troops.

The voiling began at 4 o'clock accord-

troops.

The voting began at 4 o'clock according to agreement. It was simplified by the withdrawal of conflicting amendments, so that only three votes were

ments, so that only three votes were necessary.

The result was reached after a day of forvid speeches, which, at times, aroused the crowd of spectators to enthusiastic demonstrations. The keen public interest on the subject was evidenced by the present of the subject was evidenced by the present of the subject was evidenced by the present of the largest crowd since congress assumbled. The representatives of foreign powers were numerously in attendance, the accupants of the diplomatic gallery including Ministers Mendenca of Brazil, Hatch of Hawail, Lazo-Arriaga of Gustemala, Rengifo of Colombia and Baron Von Ketteler of the German embassy. Senor Depuy de Lome, the Spanish innister, was not present, but two of the attaches of the Spanish legation occupied easts with the other diplomasts.

Spannial legation occupied seaks with cos-other diplomass. Senator Galilinger graphically pictured the wrongs which Spain indicted on the Cubane, quoting many newspaper arti-cles, and the cleared that Weyler was be-ginning to live up to his fame. In cou-clusion he said: "Godspeed to the day when Cuba shall be free."

Lodge asked to have placed in the

when Cubs shall be free."
Lodge asked to have placed in the record the outline of Weyler's forthcoming proclamations sent by the correspondent of the Associated Press, and this alone would justify any action concrete would take. General Weyler's policy of shooting down defenseless popule has begun, said Lodge.

There was a people struggling against wrongs beside which led the American colonies to rebel against Great Britain were nothing. The insurgents had gained, the right of

ecognition, by a year of warfare. If arther stress should become necessary hey would be apparent in time but as or the step now contemplated he believed it was one which the civilized rerld would appland.

Frye, of Maine, said: "I amerissick and tired to see day after day, his eplandid republic of ours doing poceed by the true wicked mation on he face of the earth."

After reading an account of the seizure

espotism.

Senator Caffory of Louisiana took an prosing view of the question. He deared Spain must be treated as belonging to the family of civilized nations, at said all points of international law and all panet of therefaced as and prevail in the dealings of this in with the rebellion. Attack in the past conduct of Spain war of place in this discussion. Spain

fered in a degree from the treatment given this race by all civilized nutions, it did not differ in kind. What had we, seeked the senator, to warrant a declaration of be?!!gerency, much less of independence? There was not a scintilla of actual evidence warranting this action.

The senator said he did not favor any course contemplating the taking up of arms against Spain in favor of Cuba. If we interfered in the affairs of Cuba, said he, we do so with the implied threat that we will protect Cuba. Against the powers of the United States Spanish chivalry and valor would not last half a campaign. Weak as Spains is, she would resont an nowarranted interference. Lest we incur the reputation of bullying a weaker nation, the United States should more with caution. Mr. Caffery opposed the resolutions he cause congress had no power, and the facts do not warrant action if one had the power.

Ar Allan of Nobraska read an axwa.

facts do not worrant retion if one had the power.

Mr. Allen of Nobraska read an argument as to the legal right of congress to recognize independence. The senator apole at great length, referring to Spain as an "outlawed nation," and Weylers as a "bloody butcher," while the crowded chamber was evidently desirous of proceeding to a vote. Allen said he would not only recognize Chab, inthe would establish her as one of the nations of the earth, and for that purpose would summon our armies and fleets to Chuba's sid. Let war come, it should not check us in our duty.

At this point numerous amendments, some verbal, were offered. One, by Call, proposed a proclimation by the United States recognizing the independence of Chuba.

Camerou of Pounsylvania offered an acceptance for avenuing the friendly.

ioa. 11 of Pennsylvania offered at

on foreign relations to accept that smendoment, said Mr. Sherman. Sherman moved to lay on the table the resolution of White of California, requesting the executive branch to grant beligeracy, and adding sympathy as Of the Church In

heligorency, and adding sympathy as follows:

"We are of the opinion that the executive department, to whose investigation and carcer the diplematic relations have been largely committed, should recognize the belligerancy of those who are maintaining thouselves in Cloba in armed opposition to Spain and that the opposition of the officer of the United States may be prudently, peacefully and effectually observed to the ond that Cloba may be enabled to establish a permanent government of her own choice.

The motion provailed, yeas 57, nays 122.

12. Mr. Allen offered the following amend-

ment:

"That the President of the United States be, and he is hereby authorized and regulated to make a proclamation recognizing the republic of Cuba as it wists under the constitution and form of government proclaimed at Jimagusy, under President Clesnores, in the month of May, in the year of our Lord, 1395, as a free and independent nation, and according to the envoy extraordinary and minister plenipotentiary of aid republic all the rights and privileges accorded to the envoy extraordinary and minister plenipotentiary of the government of Spain."

Mr. Sherman moved to lay it on the table, which motion prevailed, yeas 52, nays 17.

The vote now came on the resolutions of the committee on foreign relations. Morrill sought to lave the resolution divided, but the presiding officer held that if was out of order. The roll call proceeded amid breathless interest, although it was plain that the recolution was overwhelmingly carried. The vice president announced the adoption of the repolutions, yeas 64, nays 6.

For an instant there was a bull, and orent:
"That the President of the United

president announced this adoption of the resolutions, was 64, any 80.

For an instant there was a lull, and then when the gallerics realized that the resolutions were adopted by an overwhelming vote there was a butter of applicates which the presiding officer checked by a vigorous rupping of the guyel. The detailed vote on the final message of the resolution is as follows:

After encountering the unexpect of opposition of Boatelle preserving, the house leaders concluded to postquate the house leaders concluded to nostpone the taking up of the resolutions until the executive bill was disposed of. The entire day in the house was spent in the consideration of the legislative appropriation bill, and considerable progress was made. An agreement was readed whereby the bill to change the compansation of the United States attorneys and marginalle from the fee to the salary system is to be offered as an amendment to the bill.

An amendment offered by Tawhey, Republican of Minnerota, to provide that the members should have \$100 per month for clerk hirs throughout the year, instead of during the session only, as a now the case, provoked the charge

MISS OVERMAN'S STORY FINISHED

owa Explains Mrs. Stockton's Nonappearance for Further

Examination SAN FRANCISCO, February 28,-Miss

Mattie Overman today resumed her story of how she conspired with Mrs. Davidson to rain the Rev. C. O. Brown, and the First Congregational church was crowded with people anxious to hear her tell the tale. Continuing her story where she left off last night, Miss scheme, Mrs. Davidson bad endeavore o keep her from seeing Dr. Brown. On ssion she opened the door lead ng into Mrs. Davidson's room and Mrs.

to keep her from seeing Dr. Brown. On one occasion she opened the door leading into Mrs. Davidson's roum and Mrs. Davidson, greatly agitated, shut the door in her face. Not, however, in time to conceal Dr. Brown, who sat there. Mrs. Davidson, she said, increased her roligious fervor and urged her to read ther Bible more. She prayed long and fervently for the welfare of Dr. Brown and appeared auxious to glority him before the world. This was after Mrs. Davidson had obtained the \$500 from Dr. Brown and region of the world. This was after Mrs. Davidson had obtained the \$500 from Dr. Brown and Prown, until one day she met him accidentally, and he asked her if she had ever heard of Mrs. Baddin. Mice Overman said no, and Brown then told her tifat Mrs. Davidson had obtained \$100 from him her (Mise Overman then related how she made Mrs. Davidson we were the plot was exposed and as the denounced Mrs. Davidson belows and went to a hotol with Mrs. Tunnell. The next Sunday she went to church and saw Mrs. Davidson teaching her Sunday school class. Then she cays that she went to Dr. Brown and the amended that the woman heexposed. If he did not do at she would do it herself, even if she went to Mrs. Davidson is leaded to the she would be therestly soon. A council was held with Mrs. Brown and the deacons and the arrest of Mrs. Davidson clowed. The story was published in the newspapers and Miss Overnam and Mrs. Tunnell were of Mrs. Davidson followed. The etcry was published in the newspapers and Miss Overnam and Mrs. Tunnell were published on a knew that she was in a had lix. There was no way of explaining them to Dr. Brown accept to the immediate of the contending the body of the council was probably the livellet of the seesion, not so much on account of the coancil was probably the livellet of the seesion, in the once is man frequently interrupted by seesion was frequently interrupted by seesion of the coancil was probably the livellet of the seesion, us to much on account of the teaching heasion was frequently interrupted by

him all about the plot, which she did. Tanight's eession of the council was probably the livellest of the session, not so much on account of the testimony introduced as the way it was given. The session was frequently interrupted by outbursts of laughter, at Dr. Brown's bundliation, if he was so affected by the remarks of the session was the property of the property of the remarks of the session was more than outweighed by the great applause that he received after an eloquent apacet, in which he raked Mrs. Slockton over the coals for not appearing for further cross examination by the accused. He endeavored to point out discrepances in the testimony and to explain the case of for her non-appearance for further examination, which he said was on account of her unwillingness to answer certain questions of a pointed nature that he would have put to her. His remarks were frequently interrupted by applause, which finally became so great that one of the council under unotion that the room he cheared and that the insinces of the rest of the evening be carried on in private, which was carried, the reporters being the only outsiders admitted to the session.

It is very probable that the investigation will be carried on without the admission of the public at its future sessions, which will be continued next Threadry afternoon, adjournment to that time being decided upon.

Captain W. F. Cook was the lirat witness called this evening. He testified that at a meeting of the General Howard Bible class, of which he is a member, held some time early last year, Dr. Brown, accompanied by his wife and another woman, whom witness afterwards accordance was Mes Overman, entered the room, but that Dr. Rrown introduced Miss Overman to a group of three of four as his neces from the contract of the season.

This testimony is in direct variance to hiss Overman's testimony of last night, in which she said that she had never pussed as Dr. Brown's nices or land bean so recognized by Brown or say other person. Captain Cook's answers were meaning that the same of the

miner. He also said in answer to another ques Miss Overman as his niece Uspiain Cook objected that he could not positively swent 20, as he was under oath, but that he was reasonably certain of it. Dr. Barnard was then called but his testimony was not of an important na-

by, harinany was not of an important nature.

Dr. Brown made a statement that the reason for Miss Overnan's continued residence at his home since the trouble began was because she was without means and that if she were to apply at any hotel, residence would be reinsed for owing to the great number of people that would call on her. Dr. Brown would, however, stand the expense of such residence, which he stated he was unable to do. He mails the statement in view of the fact that much goesip on the subject was going around and he wished to place her and his position right before the public.

White Hat" McCarty's Stock Corrailed Without Food.

Monesto, February 28.—At the Canty Modero, Potrary 28.—At the Canary ranch hear Grayson Dan McCarty, the horseman, commonly known as "White Hat McCarty," has about 300 head of liorses in pasturage. Some of the stock is of fine breed. The stock was put in pasturage three months and a half ago, with the understanding between Canty and McCarty that the pasturage bill was to be paid monthly in advance. Since the first payment no money has been paid by McCarty for their feed, and they are kept in a field in which they have eaten off all the feed. As Canty cannot legally levy on the stock for the pasture bill, nor turn the stock loses without incurring liability of a damage mit, the stock romains corralled without food. Between forty and fitty head of stock have already died of starvation, and many more are so weak and familehed that they cannot live much longer unless they are given food. Canty has a lot of fite pasture band, but he objects to furnishing it free to McCarty it anch near Grayson Dan McCarty, the unless they are given food. Momentobe Rembarded by Govern ment Troops-A Decisive Engagement Expected.

[Copyrighted, 1896, by the Associated Press,] Managua, Nicaragua, February 28, via Galveston.-The campaign against the Leonists to attack Managua, but ordered an advance upon the enemy and captured the town of Nagarote, on the western shore of Lake Managua, about western shore of Lake Managua, about twenty-five miles from here and on the way to Leen. Nagarote is now held by a small body of the government troops, and a wobscim is jinelling forward in the direction of Leen. Early this morning Momentobo, on Lake Managua, was bombarded by a gunboat after the town had been called on to surrender. Ten shells were thrown into the place, and firing ceased when the finabitants iled in terror. Loss of the rebule and the amount of damage done is not known. Momentobo has declared in favor of General Ortiz, the basies of the insurrection. Reinforcements of men, arms and amountition have carrived from Greenada, and a second column will be rection. Reinforcements of man, arms; and ammunition have arrived from Grenads, and a second column will be sent to the front during the day. The successes of the government troops up to the present time have had the effect of making the president's supporters very confident of utilizately empressing the rebellion. There is little information concerning the doluge of General Ortiz and the Leonists, but necording to a report they have succeeded in placing own 4000 under arms and are advancing to meet the government troops. It this is the case a decisive engagement should shortly take place.

There is great rejoicing here tonight over mown that has just been received from Tegnelgalpa, the capital of Honduras, that Honduras will send 2000 troops to aid the government to suppress the revolt of the Leonists. President Bonitia of Honduras is a warm political friend of President Zeyala, and he has made himself a most popular mas in the hearts of the people of Managua by his act.

actually independent this nation may (with due caution, presumably) recog-nize the fact. We would not take any violent chances in so doing, you observe. Let the Cubans fight it out if they choose, and "may the devil take the hindmost!" If they win, we will pat they on the back and or "built buy!" hindmost!" If they win, we will parthen on the back and cry "bully boy!" and they will be ingrates if they do not appreciate our generosity. This, according to Seastor White, is our privilege, and it may be remarked in passing that it is a perfectly case one. Doubtless all lovers of liberty will be pleased to know that we,may do this much for struggling

Gubs.

At the same time, we may duly felicitate curselves that France did not maintain the principle isid down by the California senator, in the stormy days following the little pronuncia-mento issued by our forefathers in 1776. RANDOM REMARKS.

The Santa Rosa Republican publishes an "Address to Washington." It seems as it it would have been better just to have mailed it direct to him.

The spectacle of President Cleveland presiding at a home missionary meeting in New York is encouraging. Now if Secretary Carliels will lead in a revival meeting many people will feel a great deal of hope that things are not as dark as they look.

as they look.

The Hanford Sentinel says that the Rev. Mr. Black, of the Christian church of that place, has suggested that the Hanford pastors hold union services in the part: on Sundays during the hot season. If such a suggestion were adopted that some people would listen to preaching who otherwise would not hear sny while yet the summer days hold out to burn. It seems as if this would be an advantage, but the clergymen should know their own business better than must of us could announce it to them.

And now Springfold, Ill., has a "divine healer" of the Schiatter variety, and the prople are flocking to him by thosensis. The results rich understances attend his uninstructions. He charges actind his uninstructions. He charges nothing to bless and heal, and a host of people are ready to attent the henefit he has done to them. The case, like that of Schiatter, is peunliar. It really is unbelievable that there is any particular secult virtue in the man, yot if one rejects that view he is compelled to admit that he tribe of man is a tribe of "guills" and "suckers." ESPECIALLY IN DRUGS

Best is Always by Far the

That old but trite saying that "the best is the cheapest" is true when applied to any line of business. But importance and force are felt more in the line of drugs and chemicals than in secret to any other commedity.

the line of drige and chemical than in respect to any other commodity.

The absolute necessity of god, pure, wholesome drugs in cases of sickness is so apparent that no chances should be taken in an attempt to asave a few cents on the price of an article.

Our leading druggiets, Buker & Colson, are selling goods as cheeply as they can be bought anywhere, quality and purity considered.

When you attempt, to get drugs

nurity considered. When you attempt to get drugs cheaper than their figures you are in danger of getting an inferior article. Bloar this in mind when buying medicines or having prescriptions filled.

Special Notice.

At Brendel's Auction House they have no money to loan—in one's mind; but for every hundred cents that you expend you will receive two dollars' worth of A 1 goods. Fresh sensonable goods arriving daily. Berndel's Auction House, 1982 Mariposa street, Fresno, Cal. Don't Forget

By using the new Welsback gas lamp over the old-style 3-foot tip with gas at \$2 per 1000 feet it virtually brings the price of gas to \$1 per 1000 feet, as they consume about one-half the gas and give four times the light the old tip does. Five Welsback lamps will give as much light in a store astwenty 18-candle power electric lamps. At Portland, Orgon, and Sacramento, Cal., where both electric plants are being run by water power, gas is being sold at \$2.35 at Portland and \$2.50 at Escramento, and is competing successfully with electricity. Retain your Welsback lamps and have a strong bright light for the least money. Whenever electricity gets as cheap as, gas, at \$2 per 1000 feet, then some means will be adopted to furnish gas cheaper.

Madera Still in Doubt. the Christian church seemed to have reached a point where they defy the slements. Notwithstanding the trying day experienced yesterday the same large audience was present last night to hear Rev. S. M. Martin discourse on "The Rinal Judgment." This doctrine, said the speaker, is especially one of the New Testament. Certain reasons demanding a final judgment were pointed out. First, the justice of God demands it. Second, the accusations of conscience indicate it. Third, the relation which we have as creatures to our Greater implies it. Fourth, the resurrention of Orbrit assures it. And, in the last plea, the scriptures teach it. There were two additions to the church at the close of the sermon. The subject tenight is a "Vital Question."

THE RABBIT DRIVE.

A DAY OF GREAT SPORT IN PROSPECT.

The Line Will Form West the West Park School House.

Wee to rabbitdom today!

How happy the innocent dwellers of the plains will skip about this morning in their playful search for forage! How awful will be the events of the day and the results before nightfull! What ter-rible desolation there will be for the few that escape the fate of their kin!

Unwept, unhunored and unsung will he the fate of old and young. But the

Unwept, unhunored and unsung will be the fate of old and young. But the rancher will be happy.

Freeno will turn out for the drive, which promises to be the largest that has ever taken place.

Early this morning the slaughter will begin. Colonists will form a line in Washington colony, and with guns they will drive the jacks toward the torribory of the general drive. They will arrive where the regular line will be formed, two miles west of the West Park school house, about 9.30 o'clock. It is expected that they will reach there with a goodly number of rabbits.

At this point the line will be formed, and then the big drive of the day will begin. General M. W. Muller will be in charge, and will be seeisted by Jesse T. Walden, Dr. G. A. Miller, H. W. Skinner, A. L. Hobbs, W. F. Rowell, J. T. Lowery, Pans Smith, Thomas Porter, J. M. Collier, Pr. C. J. M. Lee, W. Garrett, Weeley Walden, M. P. Justy, M. Page Minor, Judge W. D. Crichton, J. J. Seymour, Butter Minor, Ed Perrin, D. G. Ferguen and others.

Everyone will have to obey the marshal and ble side, as the success depends to a great extent upon the formation of the line.

the line.

No firearms or dogs will be allowed on the field. It is expected to reach the corral by 2 evelock. There will be a sandwich and lemonade stand on the ground. The McMullin depot, which is a short distance from the corral, will be turned over to the lasties. Of course many people will take lunches with them.

many people will take funches with them.

The committee desires to have the drive start at 9.30 sharp. People leav-ing this city at 9 o'clock can get to the teatring point in time. Signs, reading "to the rabbit drive," have been placed along the route leading froin this city to West Park. The following is the route: Go west out. Frasno atreet, passing Lorenzo Church's and the Chinces vege-table garden: thence south west, passing Panying's fish lake; thence due south to North avenue; thence west on North avenue, passing West Park school house; two miles to the MoNeil ramb.

OUR POSITION TODAY.

NEARER WAR THAN WE HAVE BEEN FOR MANY YEARS.

Active Intervention for Cuba's Independence

Chicago, February 28.—The Post's Washington special says: Beyond a question the United States is nearer war than it has been for many years. The temper of congress is strongly in of active intervention for the in dependence of Cubs, and without a doubt is prepared to commit this gov-ernment to extreme measures in sup-port of that position. Members of the port of that position. Members of the senata and house of representatives have been overwhelmed with expressions of sympathy from every kind of organizations and from hundreds of thousands of individuals, all indicative of cangurases for the ilberation of Cuba, and not a man on the floor of either chambers the slightest fear of offending his constituents in going to the extreme. The American spirit has been so thoroughly aroused that it is only a question of a few hours when there will be an open declaration to the effect that Spain must either to mulinate hostilities on the

Mrs. Billington.

Students of the musical bistory of the close of the eighteenth century are fa-miliar with the name of Mrs. Billing. on. For some 80 years, at a time wi the art of singing was purhaps at its zenith, she reigned as one of the bright particular stars of the musical world. Sir Joshua immurtalized her as St. Ce-Sir Joshua immurtalized her us St. Ce-villa, and in the felsome fashion of the day it was said that instead of represent-ing her as listening to the ongels he should have painted the angels as silent before her. Michael Kolly, the pupil of Mezart, said of her. "I thought her an ongel in beauty and the St. Cecilia of song," and Haydo natvely recerted in his dinry, "She is a great genius, and all the wamen hate her because she is beautiful." Her history is very curious, and the brilliancy of her career as an and the brilliancy of her career as an which surrounded her from he

ery childhood very childhood.

The Georgian ora was not a period remarkable for morality, on or off, the stage, but making every allowance for the exaggeration of newspaper gossip, by improviding the conclusion. the exaggeration of newspaper gessip, it is impossible to come to the conclusion that the life of Mrs. Billington was remarkable for its virtue, even if the darker accusations which were freely brought against her are untrue. It says much for her personal charm that she remained from first to last a favorite with the public, and her fascination as a singer enabled her to triumph over difficulties which, even in those duys, would have wrecked the career of a less popular artist.—National Review.

How Much Do Dogs Know?
This is rather a difficult question to
answer. A dog about 3 years old is no
doubt wisee furthm a child double that
ago. At 6 a dog is in his zenith, and
can he haught but little more, but by
this time, although he cannot speak, excopt in a kind of damb hungang, to
knows everything that is said about him
—that is, if he has been the constant
companion of a kind master and mistress. We are too loath to admit that a
dog can understand quite a deal that is
spoken, especially if it concerns himself.
I um sure that, like myself, many of
my readers could seen he ancedotes in
proof of this. The following is sent me
by a lady. It is worth reading:

by a lady. It is worth reading:
"My husband had at one time a very
fine collie, which scenned to nuderstand conversation perfectly. On one occasion he told his bousekeeper that he was go-ing to ride next day to his father's place, 30 miles away, and, turning to his dog, said, 'You will stay at home.' Next so miles away, and, turning to his dog, said, 'You will stay at home.' Next morning the dog was not to be seen, and when his master arrived at his destination the dog had get there first, and was peacefully resting under a table. The strangest thing was that the dog was taken to my husband's home by rail, and had never traveled on foot between the two places."—Edinburgh Scotchman.

It is the east and west road through

the the east and west road through the Fresno vineyard Er. Eshleman was one of the unthors of the experiment which resulted so satisfactorily. The road was a narrow one, and there was much heavy hanling done over it. The result was that it was cut in deep ruts until it was very rough. The vineyardists in that vicinity owned nearly all the teams which hauted grapes over the road, and they gave positive orders to their teamsters to keep out of the ruts, and they saw to it that the orders were obeyed. The wagons filled the ruts instead of unking them deeper, and in a short time what had been a rough and ditheult road was changed into one smooth and easy. The suggestion is one which might be acted upon with good resulte on many roads where heavy healing is done, though there are places where something else is needed.
